Trusted by leading pharmaceutical manufacturers, global life sciences and high-technology manufacturers throughout the world, Micronclean is the UK's number one contamination control partner. We deliver garments, consumables and medical devices, alongside onsite services, cleanroom cleaning, and laboratory testing, as one seamless, single-source solution.

MICRONCLEAN AT A GLANCE

£25m Investment in the world's first carbon-neutral cleanroom laundry.

120,000 Garment processing capacity every week at GMP Grade C.

90,000 Garments processing capacity every week at GMP Grade B.

450 Own brand consumables product lines.

60 Countries our consumables are sold to every year.

15 Top 15% EcoVadis, sustainability ranking in the world.

5 GMP rated laundry/ manufacturing cleanrooms worldwide.

1 Owned by one family since 1929.

1 A single-source solution for all your cleanroom contamination control needs.

WHAT MAKES CLEANROOM CUSTOMERS CHOOSE MICRONCLEAN?

Micronclean is the UK market leader in cleanroom garment rental, supported by an ever-expanding range of own-brand cleanroom consumables supplied both in the UK and Internationally. Our offering is strengthened by a UK-wide in-house cleanroom cleaning service and two specialist cleanroom testing laboratories enabling us to be your single-source solution for all your contamination control needs.

Leading pharmaceutical manufacturers, global life sciences, semi-conductor companies and the NHS trust Micronclean not simply because of our products and services, but because of our values. Our SKIEs framework comprising Stewardship, Knowledge, Innovation and Excellence define how we operate, guides our decisions and shapes every customer interaction.

STEWARDSHIP

A LONG-TERM PARTNER, NOT A SHORT-TERM SUPPLIER

As a family-owned business, Micronclean takes a long-term approach to investment focusing on customer needs rather than short-term shareholder returns. This means continued UK investment, including our new cleanroom laundry on the Skegness Campus and the ongoing redevelopment of our Louth facility.

GOVERNANCE & TRANSPARENCY

- > Robust succession plans for Board and Senior Management ensure long-term stability and sustained growth.
- > Flat management structure enables fast decision-making, clear accountability and straightforward escalation routes.
- > Only UK cleanroom laundry signed to the Textile Services Association Workwear Code of Clarity guaranteeing no hidden or inflated residual values.

SUSTAINABILITY COMMITMENT

Our sustainability strategy is built on four pillars: Employment, Health & Wellbeing, Economic Growth & Prosperity, and Equality, Diversity & Inclusion. Key initiatives include:

- > Microngreen annual environmental reporting policy.
- > Pay above the National Living Wage with a company-wide Profit Related Pay scheme.
- > Employee development programmes including Managing People Effectively (MPE) and Future Leaders Internal Training Enterprise (FLITE).
- > In-house mental health support for all employees.

KNOWLEDGE

YOUR SINGLE-SOURCE SOLUTION FOR CONTAMINATION CONTROL EXPERTISE

As the UK's largest cleanroom garment supplier, Micronclean delivers a fully integrated contamination control solution combining garments, consumables, cleanroom cleaning, technical expertise and laboratory support.

DEDICATED COMMERCIAL SUPPORT

- > A dedicated Business Development Manager / Key Account Manager manages garment, consumable, cleanroom cleaning and testing requirements. A single contact, removing the complexity of coordinating multiple suppliers or multiple contacts in one company.
- > A nominated customer service representative ensures continuity and resilience through in-depth knowledge of your account.

TECHNICAL EXPERTISE

- > Specialist commercial team with deep cleanroom knowledge, supported by comprehensive internal training on products, standards and regulatory requirements.
- > Dedicated in-house Technical Department providing specialist support and publishing technical whitepapers, knowledge notes and knowledge-based patents.
- > Continuous improvement driven by the combined strengths of our commercial, R&D and long-serving operational teams, delivering the latest technology backed by decades of practical experience.

INNOVATION

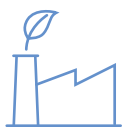

DISRUPTIVE SOLUTIONS, NOT "ME TOO" PRODUCTS

Micronclean actively seeks ways to improve your efficiency and quality, guided by a genuine commitment to developing disruptive solutions. We go beyond standard offerings to co-create value with our customers.

CO-INNOVATION & R&D

- > Trained Creativity Support Group facilitates structured innovation sessions, helping identify your operational challenges and co-develop practical solutions.
- > Dedicated R&D Project Leaders with expertise spanning microbiology to product design manage multiple projects in close collaboration with operational teams.
- > Pioneering research including development of unique disinfectants and characterisation of cleanroom fabrics for validated garment lifecycles, moving beyond visual inspection to evidence-based quality assurance.

THE MICRONCLEAN CAMPUS, A £25M VISION

In 2025, Micronclean announced a £25 million development of the Micronclean Campus in Skegness. Phase One involves the acquisition of 25 acres of land on which we will deliver, in 2028, the world's first operationally carbon-neutral cleanroom garment laundry, with capacity for future facilities to support continued growth.

AWARD WINNING DIGITAL TRAINING PLATFORM

Our Moodle-based Cleanroom Training Portal has been recognised with the *Best Cleanroom Training and Education Award* by Cleanroom Technology. The platform provides accessible, structured training to enhance compliance and improve operational performance.

EXCELLENCE

CONSISTENT. TRACEABLE. COMPLIANT. EVERY TIME.

Excellence is Micronclean's business process to continually improve the quality conformance and cost base of the business's products and services. At the core of Micronclean is a drive to lead the market technologically.

WORLDWIDE REACH

- > Supporting cleanroom operations in more than 60 countries, we deliver consistency, quality and confidence to customers around the world.
- > Through our trusted international distribution partners, we provide direct access to our expertise and ensure dependable local support wherever it is needed.

SECURITY OF SUPPLY & CONSISTENT SERVICE

- > Our UK-based, purpose-built consumables manufacturing and warehousing capabilities strengthen security of supply.

REAL-TIME TRACEABILITY & COMPLIANCE SUPPORT

- > Our consumables portal gives customers 24/7 self-service access to order and delivery status, with product certificates available on demand.
- > Full batch-level traceability for all consumables, together with routine documentation, provides the rigour needed to support compliance and regulatory obligations.

QUALITY & COMPLIANCE CREDENTIALS

Micronclean's commitment to quality is demonstrated through robust systems and processes at every site, independently audited and certified.

EN 14065 (RABC)

Hygiene & Contamination Control - Skegness and Louth Cleanroom Laundries

ISO 17025

UKAS accredited - MicronLab No. 2941

GMP Accredited

Assured Micro laboratory

EcoVadis

Top 15% sustainability rating globally

TSA Code of Clarity

Only UK cleanroom laundry signed up

All Micronclean consumables and medical devices are manufactured in accordance with EN and other vital standards, supporting regulatory compliance across controlled environments.

OUR FACILITIES

Micronclean operates an integrated network of UK facilities, delivering pharmaceutical-grade reliability, traceability and capacity.

MICRONCLEAN CAMPUS LAUNDRY

SKEGNESS EST. 2028

GMP GRADE B | ISO CLASS 5

The world's first operationally carbon-zero cleanroom laundry. A £25m investment supporting sustainability, long-term growth and regional economic development.

CLASS 4 CLEANROOM LAUNDRY

SKEGNESS 1997, 2022

GMP GRADE B | ISO CLASS 4

The UK's largest dedicated GMP Grade B cleanroom laundry, processing 90,000+ garments per week. 'The Cube' added 35% capacity for specialised items including goggles, mops and gauntlets.

CLASS 6 CLEANROOM LAUNDRY

LOUTH 2002

GMP GRADE C | ISO CLASS 6

One of Europe's most advanced cleanroom laundries, capable of processing 120,000 items per week. Highly automated and integrated with the Protrack garment tracking system; currently undergoing a £7m upgrade, including a new garment sorting system.

MICRONDEVICES MANUFACTURING CLEANROOM

SKEGNESS 2017

GMP GRADE C | ISO CLASS 6

Designed, built and qualified in-house in 2017 for sterile pack assembly, with state-of-the-art air handling, materials transfer capability and continuous pressure monitoring. Routine 100% incoming product inspection helps reduce rejection rates, and our in-house team can rapidly develop custom packs to meet customer-specific requirements.

MICRONCLEAN ASSEMBLY

📍 SKEGNESS 📅 2022

🛡️ GMP GRADE C | ISO CLASS 6

£1.8m investment (2022). Produces alcohol trigger sprays and pre-saturated wipes via a fully automatic fill line (20 bottles per minute) and a semi-automatic line for pre-saturated pouch wipes, both fed from a dedicated tank farm.

WAREHOUSING

📍 SKEGNESS

Textile Stores: Receive, check, label and register garments on Protrack—ready for use after the first wash. Core garment stock held for rapid replacements.

Consumables Warehouse: Over £3m of stock supporting in-house manufacturing and our global consumables business. Supports routine and standing orders alongside garment deliveries.

ASSURED MICRO

📍 GLASGOW 📅 2009

🛡️ MHRA GMP ACCREDITED

Expert microbiological testing and support for customers without an in-house microbiology department, with MALDI-TOF capability for rapid results. Founded in Glasgow in 2009, Assured Micro joined the Micronclean family in 2025.

MICRONLAB

📍 SKEGNESS 📅 2022

🛡️ UKAS ACCREDITED TESTING LABORATORY No. 2941

Comprehensive testing services for customers without their own laboratory facilities ISO 17025 accredited and available when you need it.
