## REGIONAL LABELLING

### REGIONS

**A**

UK | France | Spain | Germany  
Portugal | Netherlands (Flemish)

**B**

UK | Sweden | Norway  
Italy | Denmark | Finland

**C**

UK | Estonia | Greece  
Slovenia | Iceland | Poland

**D**

UK | Russia | Turkey | Ukraine

**E**

UK | Czech Republic | Slovakia  
Hungary | Romania | Croatia

**G**

Australia

**I**

India

We have created an enhanced label which enables us to remain compliant with labelling regulations and allows us to carry up to five languages in addition to English. Our current label can only carry two languages in addition to English. These five languages have also been logically grouped into geographic regions to enhance our ability to service our export customers.

So, the result of these changes is that the product code for our existing CleanGuard 1 IPA 500ml Trigger Spray Sterile will migrate from the current ZSAL64499 to ZSAL64499-A for region A orders, ZSAL64499-B for region B orders and so on. Note this regionalisation only affects products with active chemicals.

Although English is present on all the labels, for regions G and I the products are destined for Australia and India respectively. This is because they have to conform to a different set of labelling regulations in each of these countries and as such these products can only be sold and used in these countries.

The new look labels with the associated regional codes for products will be rolled out progressively during 2019 across our whole consumable range.
